## Experience

### Advanced Micro Devices (AMD)

Austin, Texas

*Technical Writer II | Full-Time*

*June 2024 - Present*

- Lead documentation across multiple product lines, managing 10+ concurrent projects while automating workflows to improve efficiency and maintain consistency and technical accuracy.
- Lead automation of AVL documentation workflows, reducing turnaround time from ~1 week to 1 day.
- Develop a Python-based change log solution for AVL revisions, enabling external customers to track version-to-version changes.

*Technical Writer | Contractor*

*June 2024 - February 2025*

- Delivered 100+ documentation projects under tight deadlines, maintaining high accuracy and consistency.
- Converted legacy Word documentation to structured XML (DITA), improving scalability and publishing efficiency.
- Streamlined AVL documentation workflows, reducing turnaround time for internal teams.

*Technical Writer | Intern*

*May 2023 - May 2024*

- Produced 70+ documentation deliverables totaling 50,000+ words across multiple technical domains.
- Developed first-time documentation including the Software Optimization Guide for AMD Zen5.
- Created API docs, SDK guides, BIOS guides, and datasheets used by engineering teams.
- Recognized by engineers for clarity and usability of documentation.

## Skills

### Technical Skills:
